

Crystal Rainbow Bodhi Bracelet

the daintiest variation of our popular bodhi bracelet design!
we use microcord to macrame sparkling 3mm swarovski crystal bicones in a rainbow palette...and added an extra splash of color with a second knotting thread!

Supplies Needed:

3mm Swarovski crystal bicones - 36 pcs.
(we used 18 different colors, 2 pieces of EACH)
#6 nylon - 1 card (2 meters)
nylon micro cord - 2 colors, 1 yard EACH
closed clamshells - 2 pcs.
4mm, 20 gauge premium jump rings - 2 pcs.
11mm lobster clasp - 1 pc.
6mm closed ring - 1 pc.

Recommended tools:

chain nose pliers
flat nose pliers
clipboard (we love our 'Rexboard'!)
office clip
beadstopper
sharp scissors
lighter -OR- glue

microcord also looks beautiful with tiny gemstone rondelles, such as the apatite below!

the three strands of this bracelet are finished individually, and are attached to a single ring that hooks onto the s-clasp.
