Flat Nose Pliers
Wire Cutter

Featured Gemstones:

Crystal quartz helps keep you even-tempered, and assists one to think clearly and make decisions from a place of strength and calm. It promotes strength, stamina, and stability, and enhances wisdom, clarity of thought, general healing, memory, meditation, communication, transformation, awakening, cleansing, pureness of heart, intention, higher consciousness, positive thoughts, harmony, and love. This stone amplifies the effects of other stones it is combined with.

Herkimer quartz, a favorite stone of many individuals, is a stone with extremely high vibrational energy for healing, assisting, supporting, and enhancing other stones around it. It can serve as a good tool for anyone desiring a "lift", as it promotes connecting to the universe and "spiritualizing" one's life. It can be employed as a tool for "cleansing one's chakra".

The energy of rainbow moonstone is balancing, introspective, and reflective. It can help to guide one through life changes, is a stone of hopes and wishes, and enhances intuition and instinct. Moonstone can alleviate tension and promote creativity. It has been called the "traveler's stone" because it is a protective talisman.
