About the kit:

Macrame is fun, and you can make these shamballa/bodhi style bracelets with a couple pieces of string, beads and your fingers! It's hand-knotted with an adjustable sliding knot, so you can make it fit just about anyone you want!

Red agate is grounding, protective and healing, and promotes courage, energy, strength, and harmony. It allows one to conquer fears and anxiety.

Crystal quartz helps keep you even-tempered, and assists one to think clearly and make decisions from a place of strength and calm. It promotes strength, stamina, and stability, and enhances wisdom, clarity of thought, general healing, memory, meditation, communication, transformation, awakening, cleansing, pureness of heart, intention, higher consciousness, positive thoughts, harmony, and love. This stone amplifies the effects of other stones it is combined with.
