Rex Board  
HypoTube cement

# About this kit:

Designed by our dear friend, Clarine - this bracelet features many gemstones that don't normally fit on stretchy cord (but Jason DRILLED them all to fit...just for you!) He did the work, so you don't have to!

The "Green Goddess Stones" video has a 45 minute run though about the beads in this bracelet! Click on the link above, if you dare.. Or can't fall asleep :)
