About this Kit:

Labradorite, with its ability to exhibit flashes of blue fire with hints of green, gold, orange, and more, is a gemstone of magic (mental and intuitive abilities) and self-discovery. This stone can assist one to recognize coincidence, synchronicity, and serendipity as part of one's abilities. Labradorite allows communication with the highest self. It enhances psychic abilities, strength of will, and a feeling of inner worth. It strengthens and protects our aura.

Sandalwood is a popular class of woods much prized for its long-lasting fragrance. The woods are heavy, yellow, and fine-grained, and, unlike many other aromatic woods, they retain their fragrance for decades. Sandalwood oil is extracted from the woods for use. Sandalwood is often cited as one of the most expensive woods in the world. Fragrant little sandalwood beads are used for their protective properties, and to promote spiritual awareness.
