Rex Board

HypoTube cement

About this kit:

Enjoy a stretchy cord bracelet kit featuring lava (not from Hawaii, so don't worry about bad luck) from different volcanic areas around Indonesia and the ring of fire, as well as a super cute pineapple in pink or buttercream!

The pineapple has been a symbol of friendship and hospitality for years, being a sweet fruit that traveled around the world extensively from warm tropical climates and was greeted with so much appreciation for its sweetness.. I love this saying about the pineapple:

Be a pineapple: Stand tall, wear a crown, and be sweet on the inside.

*You can also use essential oils on the lava for that extra boost of aromatherapy!
