About this kit:

A stretchy cord bracelet kit featuring sweetly fragrant sandalwood, coral & a hand-carved mother of pearl pikake flower focal.

The pikake (jasmine) flower is a favorite in Hawaii!

Sandalwood is a popular class of woods much prized for its long-lasting fragrance. The woods are heavy, yellow, and fine-grained, and, unlike many other aromatic woods, they retain their fragrance for decades. Sandalwood oil is extracted from the woods for use. Sandalwood is often cited as one of the most expensive woods in the world. Fragrant little sandalwood beads are used for their protective properties, and to promote spiritual awareness.

The wearing of coral dates back thousands of years. Coral is believed to be protective and healing, and has regenerative qualities. It can be used to promote personal growth and development.
