About this kit:

More about Pantone's 2022 COLOR OF THE YEAR! I think this says it all:

The Pantone Color of the Year reflects what is taking place in our global culture, expressing what people are looking for that color can hope to answer." added Laurie Pressman, Vice President of the Pantone Color Institute. "Creating a new color for the first time in the history of our Pantone Color of the Year educational color program reflects the global innovation and transformation taking place. As society continues to recognize color as a critical form of communication, and a way to express and affect ideas and emotions and engage and connect, the complexity of this new red violet infused blue hue highlights the expansive possibilities that lay before us".

Encompassing the qualities of the blues, yet at the same time possessing a violet-red undertone, PANTONE 17-3938 Very Peri displays a spritely, joyous attitude and dynamic presence that encourages courageous creativity and imaginative expression.

Very Peri is a symbol of the global zeitgeist of the moment and the transition we are going through. As we emerge from an intense period of isolation, our notions and standards are changing, and our physical and digital lives have merged in new ways.
