To assemble the earrings:
Use the 4mm jump rings to attach the feather charms to the hoops.

String the turquoise onto the head pins.

Make a basic wire wrap loop on top of each bead.

Open the loops on the earwires, and attach the wrapped beads and the hoops – making sure the patterned side of the feather is facing forward.

INSTRUCTIONS

Featured Gemstones:

Turquoise! It may be the oldest used gemstone - beads dating back to 5,000 B.c. have been found. Turquoise helps us find wholeness and truth and aids us in communication. It helps bring about serenity and peace. It heals emotions, relieves stress, and the list goes on.

Wear this like a daily multi-vitamin. Turquoise strengthens and elevates all levels of energy, increasing understanding emotional issues, creativity, and intuition, while being guided by love. It is a healer of the spirit, a source of strength, a guide through the unknown, and a protector from danger.
